

# Pricing Solutions

The ERAD solution allows law enforcement to read magnetic stripe cards, identify critical payment card information including identifying if it's a fraudulent cloned card, secure illicit funds associated with prepaid cards and document all the information in concise and easy-to-read automated reports.

## Benefits of Using ERAD Financial Crimes Investigative Solution

- Shortens a process that currently takes hours and days into one that takes only seconds at the point of arrest
- Recovers prepaid and gift card funds associated with money laundering operations
- Identifies felony crimes that may otherwise remain concealed
- Ensures all authorized personnel have access to the analytical tools necessary to immediately identify criminal activity at the point of interdiction
- Automatically inventories card information to make it easily accessed by authorized personnel
- Standardizes reports needed to sustain criminal charges, court orders, subpoenas and search warrants
